

HARI MOHAMED RIZQ

Bachelor's Degree Holder in Information Systems Engineering

Artificial Intelligence Trainee | AI Integrator | Software & Automation Enthusiast

Salé, Morocco | +212 773 104 530 | mohamedhari13@gmail.com | LinkedIn | GitHub

Profile

Bachelor's degree holder (Bac+3) in Information Systems Engineering, currently enrolled in a certified dual-track training program in Applied Artificial Intelligence. Strong background in backend and frontend development, with a focus on integrating generative AI solutions and intelligent systems into software applications. Experienced in prompt engineering, AI model integration via APIs, and the development of AI-powered chatbots and intelligent agents. Highly motivated to pursue a Master's degree in Artificial Intelligence, with a strong interest in applied AI, data-driven systems, and intelligent automation.

Education

Training in Artificial Intelligence (Dual Mode)

Tamheem / GIZ – Rabat

2025–2026

Bachelor in Information Systems Engineering (Bac+3)

SUPMTI – Rabat

2024–2025

Specialized Technician Diploma (DTS) – Full-Stack Web Development

ISTA Chmaou – Salé

2022–2024

Baccalaureate in Physical Sciences

Lycée Al Akkad – Salé

2022

Technical Skills

Artificial Intelligence:

Generative AI (ChatGPT, Gemini, Claude), Prompt Engineering, AI Agents, Intelligent Chatbots, AI Model Integration via APIs

Programming, Data & Analysis:

Python, NumPy, Pandas, Data Analysis and Preparation, Data Science Fundamentals, Data Visualization (Power BI)

Application Development:

Backend: Django, Flask, Node.js

Frontend: React.js

Databases: PostgreSQL, MongoDB

Deployment & Integration:

AI Application Deployment, Docker, REST APIs, CI/CD

Tools:

n8n (AI workflow orchestration), Git/GitHub, Agile Scrum, Jira, Trello

Academic & Applied Projects

AI-Integrated ERP SaaS for Construction Sector – 2025

- Design and development of a modular ERP SaaS for construction management (Projects, HR, Procurement, Inventory, Finance, CRM, Document Management).
- Functional analysis based on real business requirements.
- Integration of AI-powered assistants and chatbots for decision support and user assistance.
- Integration of generative AI models via APIs.
- Scalable architecture designed for future deployment.

MERN Stack Project – Interactive Blog – 2025

- Web application with authentication, real-time content and user management.

Frontend Projects – 2022–2024

- Development of responsive websites using HTML, CSS, JavaScript, and React.js.

Professional Experience

AI Integrator

Learning IT Consulting | Rabat

Oct 2025 – Present

- Development of an AI-integrated ERP SaaS platform from scratch.
- Design and implementation of generative AI modules (intelligent assistants, AI agents, business chatbots).
- Integration of AI models via APIs for analysis, user assistance, and decision support.
- Deployment of AI features within a modular SaaS architecture.
- Collaboration within a hybrid technical team environment.

MERN Stack Developer

Easy Medical Device | Rabat

May 2025 – Aug 2025

- Development of an interactive blog using the MERN stack.
- Implementation of real-time content and user management systems.

Frontend Developer

CFQMA | Salé

Apr 2024 – May 2024

- Development of a responsive website using React.js and CSS3.
- Optimization for accessibility and cross-device compatibility.

Soft Skills

Teamwork in hybrid environments • Technical communication • Problem-solving • Analytical thinking • Autonomy in AI-driven projects • Time and priority management

Academic & Research Interests

Applied Artificial Intelligence, Intelligent Automation, AI-powered SaaS systems, Data-driven decision support, Multi-agent systems, Applied AI in enterprise software
